DEI Outing to Seaton, Beer and Colyton

Date: Thursday, 23rd May

On this visit to East Devon members will be able to choose to visit Seaton Jurassic, the award winning Devon Wildlife Trust Centre in Seaton, the Beer Quarry Caves which provided the stone for Exeter Cathedral and travel on the Seaton tram way through the Seaton Wetlands with views of wading birds to Colyton, known as the most rebellious town in Devon.

This outing has been planned using public transport to take advantage of the great views as we travel along the route to Seaton-particularly on the top deck of the bus! However members may use their own vehicles if they wish.

Members will need to make choices as there will be time constraints which would make it difficult to fit in everything. We aim to leave Exeter on the 9A bus which leaves the Bus Station at 9.25. If you catch the bus further along its route anywhere from Heavitree Co-op onward would be after 9.30 for those with bus passes.

Choice A: Seaton/Colyton
